

Bobby Socks (#5270)

Gentled by Intermountain Wild Horse & Burro Advisors, Inc. (IWHBA)
www.iwhba.org

Bobby has been a very special horse. He is extremely intelligent and learns new tasks quickly. He is very shy and reserved but responds well to quiet people. He can be a little hard to catch but halters easily. Can be groomed from head to tail and have picked up his front feet. *With most of his training taking place at night we just couldn't get any good pictures.*

Adopted – November 6, 2004
