

Moon (#5267)

Gentled by Intermountain Wild Horse & Burro Advisors, Inc. (IWHBA)

Moon has been a real pleasure to work with. He tends to be a little “snorty” but takes on new challenges well. He is very curious and if you walk in his pen without acknowledging him he will walk up and bump you with his nose. He halters, picks up all 4 feet to be cleaned, and leads. He loads in a 4 horse stock trailer. He can be groomed from head to tail and loves to be cuddled. He even stood for the vet to administer vaccinations and wormer.

Adopted 5/20/05 – Danada Equestrian Center – Chicago, IL
