

Nacho (#8832)

Gentled by Intermountain Wild Horse & Burro Advisors, Inc. (IWHBA)
www.iwhba.org

Nacho has been a fun addition to our project. He was very “standoffish” in the beginning but learned very quickly. He can be approached, haltered and pick up all 4 feet. Nacho is still working on leading but should come easily. He loves his ears scratched and his face cuddled. And don’t forget those butt scratches. ☺ Once you get him to the trailer he jumps right in.
