

# Peanut (#5566)

Gentled by Intermountain Wild Horse & Burro Advisors, Inc. (IWHBA)  
[www.iwhba.org](http://www.iwhba.org)

One of our volunteers picked Peanut out of the unadopted horses from the Price adoption. Peanut likes to act like she is scared when someone first gets in the pen with her. Once you touch her however she melts like butter. She has been an extremely fast learner and seems to flourish with new challenges. She can be approached, haltered, led, pick up all 4 feet to be cleaned, and groomed from head to tail. She can also be fly sprayed and has worn a bareback pad and loaded in a 4 horse stock trailer.
