

Andy (#3157)

Gentled by Intermountain Wild Horse & Burro Advisors, Inc. (IWHBA)

www.iwhba.org

Andy was extremely flighty when he arrived at the Learning Center and actually crashed the panels a few times trying to get away from anyone looking at him. He did settle quickly. He is a very athletic horse but also very timid. Once he understands what it is his handler wants he tries very hard. He can be approached and petted. He is still learning to lead. He has also had all 4 feet picked up and loads in a horse trailer. He will also back out. Andy is very food motivated.
