

# Coco (#3188)

Gentled by Intermountain Wild Horse & Burro Advisors, Inc. (IWHBA)  
[www.iwhba.org](http://www.iwhba.org)

Coco was very evasive when we first started working with him. When he was afraid he would stick his head in the corner and shut down. Once we got his attention he made very quick improvements and seems to really enjoy interacting with his handlers. We are able to approach him, halter him and groom him from head to toe. He will also pick up all 4 feet to be cleaned. He leads well and will load/unload in a horse trailer. He actually prefers to back out.
