

# Merlin (#3049)

Gentled by Intermountain Wild Horse & Burro Advisors, Inc. (IWHBA)

Merlin loves people and attention. In the short time we have had him we are able to approach him, halter him, lead and groom him. He has also worn a bareback pad. We can pick up all 4 feet (but he does like to play a little before he will let you have them). He will also load in a trailer and tie.
