

Scotty (#1210)

Gentled by Intermountain Wild Horse & Burro Advisors, Inc. (IWHBA)

www.iwhba.org

Scotty is an extremely intelligent horse and once he figures out what it is his handler is after he tries very hard to please. He tends to get a little nervous until he understands what is being asked of him. We are able to approach Scotty, halter and lead him. We can pick up all 4 feet. He also loads in a trailer and can be tied. Scotty also loves to have his belly scratched.
